DESCRIPTION AND BACKGROUND OF THE BUSINESS

Today 's world is seeing fast-paced changes. The effects of such social change on the individual and the community include: the increasing difficulty in relying on traditional social support, the inability to transfer cultural values to younger generations, frustration with contemporary lifestyles, and the lack of possibilities for assuming a fulfilled life. This is a bleak picture, which is exactly why ELADA Institute understands the importance of gaining the skills and leadership abilities that are needed by today's youth and their educators. Our team strongly believes that education, training, and awareness can make a difference and can inspire us to create a more equitable and sustainable society for the future. By sowing the seeds for an engaged and dynamic younger generation we can cultivate positive change and move closer to our vision. Community is a key word in the ELADA Institute philosophy, and we recognize the need for synergistic teamwork at all levels of the community or institution to accomplish the ultimate goal of empowerment for positive growth. Our mission is to widen access to education and to empower future leaders, managers, businessmen and women, as well as the youth to change the world through the careers and businesses.

ELADA Institute offers a range of flexible study options, including full-time, part-time, and online programmes. Students can balance their studies with work, family, and other commitments. We also use a blended learning approach that combines online and classroom-

based instruction. Students can study at their preferred pace and convenience while engaging with instructors and peers in a traditional classroom setting.

We are committed to providing accessible and affordable education to students from diverse backgrounds. The school offers a range of scholarships, bursaries, and payment options to help students finance their studies.

ELADA Institute has a strong international emphasis and offers students opportunities to study and gain experience abroad. The school attracts students worldwide, creating a diverse and multicultural learning environment.

Our programmes are practical and relevant to the needs of the modern business world. Students learn through case studies, simulations, and hands-on projects that provide real-world experience.

ELADA Institute has strong connections with industry leaders and organisations, which allows students to gain valuable insights and experience through work-directed learning, internships, guest lectures, and other industry-focused activities.

Our faculty comprises experienced business leaders and academics with expertise in various industries and disciplines. Students receive instruction and guidance from experts in their field.

We offer customised support to help students succeed. This includes academic advisors, career counselling services, and access to learning resources and support networks.

Whether you are starting your career, looking to reskill or upskill, Elada Institute has a short course, short qualification or full qualification that will suit your needs.

Our flexible schedules allow you to study at your own pace, from anywhere and at any time.

Our approach to learning goes beyond the conventional and traditional, ensuring stakeholders' engagement and personal, social and economic return on investment (ROI) in their learning journey while using best practice models.

Strategic thinking and thought-provoking case studies exposes students with a higher level of practical problem solving abilities. All modules / standard units are rigorously designed with industry input, an opening vignette to major events and real-world issues around the globe.

At the core of its institutional philosophy, ELADA INSTITUTE is about innovation, research-based and leadership. It is about nurturing and shaping leaders and entrepreneurs to have impact in their context. At ELADA, understanding today's important challenges that confront business and society, and discovering tomorrow's interesting opportunities are at the heart of

our teaching, learning, and research and community engagement.

ELADA'S programmes cover the areas of economic and management sciences, management and leadership, engineering, built environment & IT, Health sciences, humanities, law and range from higher certificate progress to highest level of education.
